

Memorandum

To: Provosts and Chief Academic Officers

From: Paula K. Compton Ph.D., Associate Vice Chancellor

Date: August 26, 2021

Subject: Endorsement Survey: Air Transportation Learning Outcomes for Unmanned Aircraft Systems (UAS) Career-Technical Assurance Guide (CTAG) course.

Background Information: Each year the Ohio Department of Education's career-technical content standards are reviewed in different subject areas. This year, the transportation pathway was examined. Postsecondary faculty have been brought in to review these programs to determine if the creation of a new Career-Technical Assurance Guide (CTAG) course is appropriate. A working group comprised of faculty members from Aviation programs across the state examined the Air Transportation pathway subject area of Unmanned Aircraft Systems (UAS), along with the content of similar courses currently offered at public institutions in Ohio. They determined similarities sufficient to suggest the development of a CTAG course in UAS.

What We Need from You: This memo addresses the need for statewide endorsement of learning outcomes for the creation of a CTAG course in Unmanned Aircraft Systems (UAS) in the Air Transportation CTAG. Please arrange to have an appropriate faculty at your institution complete the survey as soon as possible **but no later than Friday, September 10th**. We are collecting **only one representative** response per institution.

A copy of the learning outcomes is attached for reference. Brian Strzempkowski, at The Ohio State University serves as our lead faculty expert for the review of this CTAG.

The online survey is available through the following link:
